- Deep orange flesh colour
- Small and dense cavity (efficient for processing industry)
- Sweet melon with a high sugar level, up to 15 brix

Descriptions, illustrations, growing advices and any other information, for example on expiry, sowing, planting and the harvesting dates, of Rijk Zwaan Distribution B.V. or its affiliates in whatever form are based as precisely as possible on experiences in trials and in practice. However, Rijk Zwaan Distribution B.V. and its affiliates cannot accept in any case liability on the basis of such descriptions, illustrations, growing advices and information for damages or deviating results in the grown product. The buyer itself is responsible for proper storage of the seeds and will be deemed to determine whether the products and growing advices are suitable to be used for the intended cultivations and under the local conditions. The pictures in this leaflet show the types to which the varieties as mentioned belong and not all varieties as such. These pictures do not constitute any warranty, express or implied, of crop performance.*

**The super sweet long
lasting mellow melon**
